

ERIC PRECEPTORSHIP

Realizing Precision Medicine in CLL: Why and How

November 17-18, 2023
Stresa, Italy

Day 1 - November 17, 2023

09.00 – 10.00	Opening: welcome and introduction <i>Paolo Ghia</i>
10.00 – 10.30	ERIC – a forum for education and research in CLL <i>Paolo Ghia</i>
10.30 – 11.00	Coffee break
11.00 – 12.30 Hands on session	How to diagnose CLL and when to start treatment? <i>Gianluca Gaidano, Andy Rawstron</i>
12.30 – 13.30	Lunch break
13.30 – 15.00	Risk stratification – How to assess <i>TP53</i> aberrations and IGHV gene somatic hypermutation status <i>Sarka Pavlova, Andy Rawstron, Richard Rosenquist, Kostas Stamatopoulos</i>
15.00 – 15.30	Coffee break
15.30 – 17.00 Hands-on session	What is high-risk CLL? Tailoring treatment on biomarkers <i>Florence Cymbalista, Gianluca Gaidano, Arnon Kater, Richard Rosenquist, Lydia Scarfo</i>
17.00 – 17.30	Coffee break
17.30 – 19.00	Precision treatment of CLL: where diagnosticians and clinicians meet <i>Florence Cymbalista, Othman Al-Sawaf, Arnon Kater, Lydia Scarfo</i>

Day 2 - November 18, 2023

08.30 – 10.00 Hands-on session	Optimizing outcomes: balancing safety and efficacy <i>Florence Cymbalista, Gianluca Gaidano, Paolo Ghia, Arnon Kater, Othman Al-Sawaf, Clemens Wendtner</i>
10.15 – 11.45 Hands-on session	Practical considerations in the decision making process: : patient's profile, drugs' profiles, patient's preferences <i>Florence Cymbalista, Arnon Kater, Othman Al-Sawaf, Lydia Scarfo, Clemens Wendtner</i>
11.45 – 12.00	Lunch break
12.00 – 13.30 Interactive case session	Sharing experiences <i>Paolo Ghia and Kostas Stamatopoulos – all faculty</i>
13.30 – 13.45	Wrap-up of the meeting Paolo Ghia
